Professional Summary

Java Backend Engineer with 4+ years of experience developing and maintaining enterprise applications using Java, Spring Boot, Microservices, REST APIs, and MySQL. Experienced in core banking and lending workflows, database optimization, event-driven architecture, and backend troubleshooting. Familiar with AI-assisted development using OpenAI Codex for code analysis, debugging, and development productivity.

Technical Skills

Programming Languages: Java, J2EE, JavaScript, TypeScript

Backend Technologies: Spring Boot, Spring MVC, Hibernate, JPA, REST APIs, Microservices

Architecture & Messaging: Event-Driven Architecture, Apache Kafka, Resilience4j

Databases: MySQL, SQL, Query Optimization, Database Design

AI Development Tools: OpenAI Codex, Claude, Google Gemini

Development & Testing Tools: Git, GitHub, Jenkins, IntelliJ IDEA, JUnit, Postman

Frontend Technologies: Angular 21, HTML, CSS, JavaScript

Professional Experience

Sensei Technologies Pvt. Ltd.

July 2022 – Present

Software Engineer *Bengaluru*

Project: Encore Banking — Core Banking & Lending Platform

- Worked on Encore Banking, an enterprise banking platform supporting loan management, lending operations, financial transactions, and automated banking processes.
- Contributed to backend workflows involving loan disbursements, scheduled repayments, advance repayments, prepayments, pre-closures, transaction reversals, and back-value-dated transactions.
- Worked with automated End-of-Day (EOD) batch processing, including interest calculations, demand generation, and banking date management.
- Optimized MySQL queries using indexing, query restructuring, and database schema improvements to support efficient data retrieval.
- Implemented Resilience4j circuit breaker and retry mechanisms to improve fault tolerance in microservice communication.
- Integrated Apache Kafka for asynchronous messaging and event-driven workflows.
- Used OpenAI Codex for AI-assisted code analysis, debugging, and development support in enterprise Java applications.
- Participated in Agile development, troubleshooting, code reviews, and backend issue resolution.

Sensei Technologies Pvt. Ltd.

March 2022 – June 2022

Software Engineer Intern *Bengaluru*

- Supported Java application development and REST API integration.
- Worked with relational databases, Hibernate/JPA, and frontend components.
- Developed UI components and integrated them with backend services.

Certifications

- Master Microservices with Spring Boot, Docker & Kubernetes — *Udemy*
- AI Engineer Agentic Track: The Complete Agent & MCP Course — *Udemy*

Education

The Oxford College of Engineering

2017 – 2021

Bachelor of Engineering, Mechanical Engineering *Bengaluru*
